## OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the commissioner of administration who is appointed by the governor with the advice and consent of the Senate. The commissioner appoints the directors of the divisions who are responsible to him. The OA divisions are: **Accounting**-maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; **Budget and Planning**- analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; **Facilities Management, Design and Construction**- provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; **General Services**-provides agencies with a variety of support services such as printing, fleet management, administration of the Legal Expense Fund and the state employee workers' compensation program, vehicle maintenance, and mail services; **Information Technology Services**- manages consolidated state information technology resources for all state agencies; provides mainframe computer processing services to all state agencies through the consolidated State Data Center, manages the State's telecommunication services, and provides Internet services, IT education services, and network support to all state agencies; **Personnel**- provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and **Purchasing and Materials Management**- centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts.

A number of boards and commissions' budgets are also appropriated to OA: Administrative Hearing Commission; Office of Child Advocate; Children's Trust Fund; Life Sciences Research Board; Missouri Public Entity Risk Management (MOPERM); and the Missouri Ethics Commission.

The Office of Administration administers a number of debt and related debt obligations appropriations, as well as various pass-through distributions from the federal government and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits, such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, and appear in a separate budget book entitled "Employee Benefits."

## 2. CORE DESCRIPTION

Senate Bill 367 (2005) requires special overtime appropriations only for facilities operating on a twenty-four hour, seven day a week basis in the Departments of Corrections and Mental Health, the Division of Youth Service in the Department of Social Services, and the Veterans Commission in the Department of Public Safety.

The Office of Administration has reallocated the overtime appropriations received in FY 06 back into the personal service core operating appropriations of the applicable divisions.

<b>BUDGET UNIT NAME:</b> Commissioner's Office - Oper	<b>DIVISION:</b> Commissioner's Office

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

It is requested that 20% be approved as flexible PS/EE, the same amount as in FY 06. This flexibility would help the division manage responsibilities and resources should any withholding occur and the flexibility to pay accrued time when someone leaves the division or replace critical equipment. We do not know ahead of time which of these will be needed. Previous years' core cuts have left no flexibility to pay these ongoing liabilities.

## 2. CORE DESCRIPTION

This core request is to fund the operations of the Division of Accounting. The division provides a central payroll processing function, central accounting service, and a statewide financial reporting function for the State of Missouri. This includes producing payroll checks and vendor payments. The division also prepares and distributes comprehensive, accurate and timely financial reports for the State of Missouri. In addition, the division is responsible for monitoring and oversight of the employee benefits programs and provides support and oversight for issuance of debt. The division is also responsible for the administration of social security coverage for state and political subdivision employees.

This budget request reflects a decrease of \$40,428 (Fund 0407) and one FTE from FY 06 core. This position which supports surplus property activity is being transferred to the Division of Purchasing and Materials Management.

# FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 30404	<b>DEPARTMENT:</b> Office of Administration
<b>BUDGET UNIT NAME:</b> Accounting - Operating	<b>DIVISION:</b> Accounting

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

It is requested that 20% be approved as flexible PS/EE. This flexibility would help the division manage responsibilities and resources should any withholding occur. The division's responsibilities of vendor payments, payroll, debt management, and financial reporting are critical statewide functions.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Accounting Operations  
**Program is found in the following core budget(s):** Accounting Operating

### 1. What does this program do?

This program provides a central payroll processing function, central accounting services function, and the statewide financial reporting for the State of Missouri. The payroll function includes producing state employee's payroll checks or direct deposits and producing W-2s. The central accounting services function produces vendor payment checks and ACH transactions and produces 1099's. This program also assists with maintaining the Statewide Accounting System (SAM II). This includes establishing coding structure, maintaining system tables, preparing the chart of accounts for the system, and monitoring system assurance reports. The financial reporting portion of this program is responsible for producing the Comprehensive Annual Financial Report (CAFR), the annual Appropriation Activity Report, and the Statewide Cost Allocation Plan (SWCAP). The financial reporting area monitors general revenue cash flow activity on both daily and monthly basis. Reports produced are essential to sound financial management of the State. Financial reporting also provides continuing disclosure information for outstanding debt to the Nationally Recognized Municipal Securities Information Repositories (NRMSIR) in accordance with the Securities and Exchange Commission's Section (b) (5) of SEC Rule 15c1-2.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 33 RSMo and SEC Rule 15c2-12

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

No

### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Includes personal service and expense and equipment costs for support staff for the Debt Management Program, CMIA, and Other Federal Payment Program. Not cost beneficial to break those cost out because of the overlap of staff duties.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Accounting Operations  
**Program is found in the following core budget(s):** Accounting Operating

**6. What are the sources of the "Other " funds?**

N/A

**7a. Provide an effectiveness measure.**

Financial reports are also critical in sound financial management, maintaining the State's AAA bond rating, and complying with the Securities and Exchange Commission regulations.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Accounting Operations  
**Program is found in the following core budget(s):** Accounting Operating

7b. Provide an efficiency measure.

### Financial Reports

CAFR produced within six months after the fiscal year ended (December 31).  
 Appropriation Activity produced 60-days after close of the fiscal year  
 (October 31 in FY 02-04 and September 30 in FY 05).

### Date Produced

## 2. CORE DESCRIPTION

This core request represents resources for continued operation of the Division of Budget and Planning. Chapter 33 RSMo charges the Division to assist the Commissioner of Administration and the Governor in management of the Executive Branch. The division analyzes budget policy issues and provides fiscal information to the commissioner, the Governor's office, the General Assembly, Missouri's congressional delegation, and state, local, and federal agencies. The staff reviews state agency fiscal operations, prepares annual budget instructions, analyzes budget requests, and prepares the annual Executive Budget and appropriation bills. The division manages the automated state budget system. Division staff analyze the state economy and tax issues, estimate revenue collections, track agency performance measures, and draft fiscal notes. The division coordinates legislative reviews for the executive branch. The division reviews federal issues and their impact on Missouri. The division also is the designated state demographic agency and has statutory duties for technical aid to the decennial reapportionment of election districts.

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

20% of PS and E&E budgeted amount. This totals \$311,002 PS and \$17,219 EE. B&P received 20% flexibility in Fiscal Year 2006. This will allow the division the flexibility to pay accrued time when someone leaves the division, replace critical equipment, and meet basic training needs for analysts and supervisors. We do not know ahead of time which of these will be needed. Previous years' core cuts have left no flexibility to pay these ongoing liabilities.

## 2. CORE DESCRIPTION

Section 33.282, RSMo, directs the Office of Administration, subject to appropriation, to develop a tax expenditure budget for submission to the General Assembly. The tax expenditure budget must indicate the reduction in revenue collections for each fiscal year as a result of each deduction, exemption, credit or other tax preference as authorized by law, and must indicate, where appropriate, the tax source of each state-funded program. The requested funds will be used to contract with a third party for update of a tax expenditure budget. The tax expenditure budget will provide the information necessary to allow decision makers to allocate Missouri's resources in the most effective and efficient manner.

**2. CORE DESCRIPTION**

Ongoing appropriation authority is needed to enable the Division of Budget and Planning to receive federal resources for policy research, if such resources become available. If federal resources become available, this appropriation will allow the Division of Budget and Planning to conduct research in policy areas of statewide concern. In Fiscal Years 2000 and 2001 the appropriation was used for Missouri's participation in the Census 2000 Demographic Full-Count Review program, funded by the U.S. Census Bureau.

## **2. CORE DESCRIPTION**

Contracts have been awarded in the past to assist the State of Missouri in identifying potential changes to federal statutes, regulations and/or policies that will maximize federal reimbursement to the State; to assist in furthering the federal adoption of potential changes to federal statutes, regulations and/or policies identified; and to develop and assist in implementing federal and nonfederal cost savings and cost containment concepts. Departments have been instructed, beginning in FY 2007, to request any contract projects through an appropriation in their budget. This appropriation in OA is being requested to cover any unanticipated department contracting needs. This appropriation will no longer exist in OA's budget after FY 2007.

Contractors submit total, guaranteed not to exceed pricing for each of the projects based upon the hourly rates in the contract. The contract also allows the contractors to submit alternative pricing which can be contingency fee based; however, the contracts do not stipulate the specific contingency fee which will be determined in each work plan request. Work plans and projects are continually being determined; therefore, \$1E general revenue is being requested.

## 2. CORE DESCRIPTION

Governor Blunt ordered in FY06 that management of state information technology resources be consolidated under the Office of Administration. For Fiscal Year 2006, the Office of Information Technology, along with the funding for information technology staff and computer equipment from various OA divisions, were reallocated from Assigned Programs into the Division of Information Services. These resources will be under the direct control of the state's Chief Information Officer, who will assess the information technology staffing and equipment requirements for each department. This should result in a better, more coordinated use of state resources.

This decision item is the FY07 Core request for the Office of Administration, newly expanded Information Technology Services Division (ITSD). The Core request contains the operating funds for each of the division's sections including Technology Services, Systems and Programming, MOTEC and Finance and Administration. This Core Request also contains moneys formerly appropriated to the former Office of Information Technology, including various federal appropriations. Previous initiatives started by the former OIT office will continue as documented in the Program Descriptions for Justice Integration, Continuity of Operations / Continuity of Government (COOP/ COG). Justice Integration enables the sharing of critical information between police officers, court administrators, corrections officers, and other officials at the federal, state, and local levels. The new ITSD will work with the Missouri Homeland Security Office to aid agencies in ensuring the effectiveness of their Cyber Security and Continuity of Operations/ Government efforts.

## CORE DECISION ITEM

<b>Department</b>	Office of Administration	<b>Budget Unit</b>	<u>30610</u>
<b>Division</b>	Information Technology Services Division		
<b>Core</b>	ITSD Operating Core		

The new Information Technology Services Division (ITSD) will continue with various programs/ functions as described below but will be restructuring in order to manage and implement new IT Consolidation initiatives. These IT Consolidation initiatives include network consolidation, Email and server consolidation efforts, and enabling MODOT fiber to help provide new Telecommunications infrastructure including Voice over Internet Protocol (VOIP). The new division will be monitoring agency IT budgets and shifting IT personnel in order to reduce costs in FY07. The new division will leverage consolidated IT budgets more in order to receive better pricing on equipment purchases and software pricing. These projects are multi - year projects, but in FY07 various IT budgets will begin consolidating under the Office of Administration. IT staff from the various Executive Branch departments will be moved to the Office of Administration . The transfer of these FTE's from the other departments and the transfer of the EE IT moneys are documented in a separate Core Decision Item under this division.

Currently, the major sections of ITSD include:

**1. Technology Services** – This section operates both the State Data Center and the Telecommunications network after a reorganization in FY02. The State Data Center provides mainframe computer processing services to the Office of Administration, Department of Revenue, Department of Social Services, Department of Health, Highway Patrol, Department of Natural Resources, and most state agencies. The State Data Center provides services to all departments and now represents the State's only mainframe data processing center after data center consolidation. Technology Services also provides low cost telecommunication services to all state agencies and to some colleges and universities. The section monitors and administers the State's telecommunications network. SDC and Telecommunication operations are funded through Revolving Fund appropriations and cost of operations are shared by all state agencies. State agencies are billed back for their usage based upon rates established in annual cost allocation plans.

**2. Systems and Programming** – This section provides system analysis and programming services to the Office of Administration and to all state agencies through SAM II maintenance and support. This section supports and maintains the SAM II, SAM II Data Warehouse, and BRASS systems and associated servers which are critical to the operations of all state departments. The unit also supports 16 other systems for the Office of Administration and supports the Statewide Internet web pages and servers. This section is mostly General Revenue funded. In FY06, this section also began desktop support and Email support for the Office of Administration after a reallocation of staff and resources from the OA Commissioner's Office as part of the IT consolidation effort.

**3. MOTEC** – The Missouri Technical Training and Education Center (MOTEC) is a statewide resource for technical training. MOTEC coordinates technical training for all state agency Information Technology organizations. This operation is funded by Revolving fund appropriation and agencies share the cost by billing the IT sections of each department based on usage and the number of IT staff in a department.

# CORE DECISION ITEM

<b>Department</b>	Office of Administration	<b>Budget Unit</b>	30610
<b>Division</b>	Information Technology Services Division		
<b>Core</b>	ITSD Operating Core		

**4. Finance and Administration** – This section supports all the other DIS sections with accounting, budgeting, procurement, Revolving Administrative Trust Fund (RATF) billings, RATF accounts receivable administration, RATF cost allocation plans, RATF cash management planning, statewide switchboard services, office support and receptionist services. This section is partially General Revenue funded and partially Revolving fund.

ITSD strives to maintain acceptable levels of service, systems capacity, and availability for its customers. Customers (other state agencies) must have 24-hour support for its operations and must have adequate resources to meet peak and future growth requirements. The resources and services provided by DIS are critical to agency operations. Not funding this decision item would impair the division's ability to meet customer requirements and a disruption to agency critical operations. Critical operations include State Data Center and network operations, Internet access, Telecommunications, and support of SAM II functions such as statewide budgeting, payroll, personnel, and accounting processing. The division also provides Internet access and maintains Statewide Web pages which have become a key mechanism for the citizens of Missouri to access information about State government and to communicate and conduct business with State government agencies and elected officials.

**NOTES:**

Note #1- The FY03 Core was decreased due to a reallocation of CORE to the OA Commissioner's Office and OA divisions for \$1,121,810. The FY03 Core was also decreased by \$734,055 in General Revenue cuts. ( See GR Core Cut History below).

Note #2 - Special General Revenue withholdings in FY02 and FY03 occurred above the normal 3% along with a general hiring freeze. In FY02 the General Revenue Withholding was 19.4% for Core and 29.4% in FY03.

Note #3 - Additional withholding amount of \$362,237 was made in FY05.

Note #4 - GR Reductions for FY06 included \$81,396 PS and \$362,237 of EE. The RATF EE appropriation was reduced \$5M in FY06.

# FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 30610	<b>DEPARTMENT:</b> Office Of Administration
<b>BUDGET UNIT NAME:</b> Information Technology Services Division	<b>DIVISION:</b> Information Technology Services Division

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

It is requested that 20% of both the GR and RATF operating appropriations be designated as Flexible PS/EE.

This type of flexibility enables the division to manage through any special additional withholdings during the fiscal year reducing immediate layoffs scenarios and impacts if savings can be obtained in expense and equipment areas. It is critical to the Division to retain key technical staff that continue to Optimize the SAM II systems and to maintain SDC technical support so that EE operating costs are contained and managed. Another possible scenario is that certain software or equipment, or contracted services may be needed that may decrease the need for personal services. The PS/EE Flexibility provides some tools for the Division to manage through tight fiscal situations with the least disruption of key services.

**2. Estimate how much flexibility will be used for the budget year.** How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
None was used in FY04. There had been discussion to start using the Flexibility in FY04 but then the additional reserves were released.	Dependent on any additional PS withholding for FY06.	Dependent on any additional PS withholding for FY07.

<b>3. Was flexibility approved in the Prior Year Budget or the Current Year Budget?</b> If so, how was the flexibility used during those years?	
PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Yes, approved. None used to date.	Yes-20% approved in FY06. Use depends on any additional PS withholdings.

## PROGRAM DESCRIPTION

<b>Department</b>	Office of Administration
<b>Program Name</b>	State Data Center (SDC)
<b>Program is found in the following core budget(s):</b> Information Technology Services - Operating	

**1. What does this program do?**

The SDC was initially established in 1977 by consolidating the Department of Revenue and Office of Administration computer centers. As part of the COMAP initiatives, the computer centers from the Highway Patrol, Social Services, and DOLIR were consolidated into the SDC. Savings are realized by the State through consolidating technical and operations personnel to maintain 24 hour services, as well as, reducing hardware and software costs by sharing these capital expenditures. The SDC now represents the State's only 24 hour by 7 day a week mainframe data center. The SDC provides a number of mission-critical services to agencies, including CPU processing and storage for applications, such as MULES for the Highway Patrol, SAM II for the Office of Administration, MACSS and FAMIS for Social Services and various tax systems for the Department of Revenue.

The SDC also houses the Internet access point for all state agencies and runs a firewall and DMZ complex to protect the network from cyber attacks. The core network, which allows all state agencies to exchange email and data, is also the responsibility of this unit.

Agencies are billed by the Information Technology Services Division at rates developed through a Cost Allocation Plan, based upon agency usage of the services. The services are billed to agencies and then collected into the OA Revolving Fund. Payments for the vendor services and equipment are then paid from the same fund. The SDC Steering Committee, comprised of agency IT management, provides direction to SDC management on policies, procedures, and the Cost Allocation Plan. It approves the billing rates and operating budget.

The FY06 Cost Allocation Plan for the SDC has 90.25 FTE's budgeted with a total operating budget of \$21,547,662 including fringe benefits.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Statute 37.005 provides for the Commissioner of Administration to provide data processing services to agencies, the authority for billing, along with the creation of the OA Revolving Fund.

**3. Are there federal matching requirements? If yes, please explain.**

No

**4. Is this a federally mandated program? If yes, please explain.**

No

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Fund. The FY 2006 Planned Expenditures is the FY06 Cost Allocation Plan expenditure amount including transfers for Fringes and Other Transfers. The actual expense will depend upon the rate of agency utilization in FY06. **Historically, expenditures have been less than projected in prior years.**

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** State Data Center (SDC)  
**Program is found in the following core budget(s):** Information Technology Services - Operating

**6. What are the sources of the "Other " funds?**

OA Revolving Administrative Trust Fund. The operations of the State Data Center are appropriated from this fund.

**7a. Provide an effectiveness measure.**

Various SDC billing rates are used to gauge the cost effectiveness of the SDC program. A goal of having billing rates to agencies equal to or lower than the previous year is targeted annually.

A cumulative comparison of the rates from FY02 to FY06 yields the following data :

SDC Category of Service	SDC FY06 Rate	FY02 Rates	% Change
CPU Service Unit	\$0.0166	\$0.0252	-34%
CICS (on-line) Transaction Cost	\$0.0009	\$0.0011	-18%
DASD (Storage) Cost	\$0.2985	\$1.1355	-74%
DB2 (Data Base) Cost	\$0.0044	\$0.0041	7%
Laser Print	\$0.0332	\$0.0241	38%

The SDC strives to keep the rates equal to or lower than the previous year. For FY07 and FY08 projections - the rates are estimated to be the same as FY06 except Laser Print.

Agencies are being discouraged from printing, thus the print rate is rising due to usage decreasing. Agencies are encouraged to use much cheaper on-line viewing of data versus expensive printing.

**7b. Provide an efficiency measure.**

The SDC been able to reduce the Net Billing to agencies per MIP by over 50% since FY00. Net Billings is what was billed to agencies after all credits in a FY. MIPS are an industry standard to measure computing power on mainframe computers. (Millions of Instructions Per Second)

**7c. Provide the number of clients/individuals served, if applicable.**

In June, 2004 there were 26,699 USER ID's (state employees and local law enforcement staff) that accessed or updated an application online at the SDC.

**7d. Provide a customer satisfaction measure, if available.**

As mentioned above, the SDC Steering Committee provides input on the quality of SDC services provided. In addition, there are various other technical committees and work groups that meet weekly or monthly with SDC staff that provide feedback on services and work collaboratively on security, operational, and technical issues.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Statewide and OA Applications Development and Support  
**Program is found in the following core budget(s):** Information Technology Services Operating

### 1. What does this program do?

OA software applications, servers and desktops are supported through the Systems and Programming section of the Information Technology Services Division. This unit is responsible for the support of SAM II (Statewide Financial and Human Resource/Payroll System) including applying and testing software fixes from the vendor, server hardware support, data warehouse software changes, backups, and creating interface files from SAM II to agency subsystems and to vendors. The SAM II support also includes working with OA divisions on new releases of SAM II, creating special reports, and providing 24 hour support to the Financial, HR (payroll), BRASS (Budget), and Fixed Asset jobs.

This program also provides other application development services and systems support to all the OA divisions. Most OA divisions have Statewide responsibilities involving systems supported by Systems and Programming. A recent example of OA systems developed by this section is the Electronic Application System (EASe) used by citizens to submit job applications under the State Merit system in an electronic format through the internet.

The section also supports OA desktop, imaging, and server equipment and related peripheral equipment such as printers and network equipment. In addition, OA web pages and the Statewide web page that will be used as a portal to E-Government services are supported by this program.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 37 of RSMO provides broad authority to the Office of Administration to maintain and develop Statewide accounting systems of which SAM II is one.

### 3. Are there federal matching requirements? If yes, please explain.

No.

### 4. Is this a federally mandated program? If yes, please explain.

No.

### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

FY03 and FY05 had additional General Revenue withholdings.

### 6. What are the sources of the "Other " funds?

Not applicable

## 7a. Provide an effectiveness measure.

Various ratios can be calculated for the program using the number of Programs Maintained and Service Requests Completed divided by the number of FTE in the section. This provides some insight on the number of tasks performed by the section in relation to Support activities only. However, the scope of work on Service Requests will vary and some variance will occur as large sized requests are worked. In FY06 and FY07, it is expected some more larger-sized development projects will be occurring compared to FY04 and FY05.

### Work Ratios for Systems and Programming

Prior Fiscal Years				
		FY03	FY04	FY05
Computer Programs Maintained		4,782	4,866	4,955
Service Requests Received		2,955	2,079	1,563
Service Requests Completed		2,969	2,147	1,647
Service Request Backlog on 7/1		301	287	135
FTE		42	36	36
Programs Maintained Per FTE		114	135	138
Service Request Completed Per FTE		71	60	46
Completed to Received Ratio		100.5%	103.3%	105.4%

Projections for FY06 Through FY08		
FY06	FY07	FY08

**7b. Provide an efficiency measure.**

**a. SAM II State Data Center Operational Savings**

Since FY01, the Systems and Programming section has continually optimized the SAM II programs and operating jobs completed by contractor staff. By FY04, the savings accumulated from this Optimization project were such that the Information Technology Services Division was able to reduce its General Revenue CORE budget by one million dollars. The savings were accumulated through system operation changes, archiving data, changing job back-up methodologies, re-writing inefficient code and back-ups, and other efficiency changes. The savings are also due partially to reductions in the SDC rate structure.

Below is a listing of the CORE General Revenue E&E reductions in the Information Technology Services Division enabled significantly by the Optimization project.

Fiscal Year	CORE GR E+E Reduction Amount
2002	\$204,106
2003	\$468,810
2004	\$1,046,343
2005	\$211,679
2006	\$362,237
Total since 2002	\$2,293,175

**b. OA New Systems Development Savings**

The Systems and Programming section develops new applications and enhancements to existing systems as well as complete service requests that maintain existing systems. An example of a new application implemented recently in FY04 is the Statewide Fleet Management System. The system implemented a uniform reporting method of state vehicle data from all state agencies including assignment information, location, maintenance and repair data, utilization, and other information enabling more effective use of the fleet. Several options to buy a commercial package were reviewed and an estimated cost of \$250,000 to \$350,000 was saved by developing the software. In FY05, the section developed EASe. EASe is a web-enabled system allowing the Division of Personnel to receive merit system applications through the Internet.

**7c. Provide the number of clients/individuals served, if applicable.**

This program serves all OA divisions as well as all State agencies. State agencies depend upon the SAM II systems to process payroll, budget and financial control information. Hundreds of human resource and fiscal management personnel depend upon the SAM II systems being available each day to process their data and report information from. The Data Warehouse reporting system is also maintained by this program which feeds information to agency subsystems and to fiscal staff through all State government.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Justice Integration  
**Program is found in the following core budget(s):** Information Services Technology Division

Federal \$987,598

**1. What does this program do?**

Integrates justice systems in response to the increase in public demand, being driven at the local level, for accountability, effectiveness and responsiveness. There are increased expectations regarding the ability of justice agencies to proactively respond to community needs with high-risk and repeat offenders. And, there is increased public demand for electronic access to information and services as well as the need for extended hours of operation.

Beyond improving the internal operations of our justice agencies, this project will enable the sharing of critical information between police officers, court administrators, corrections officers, and other officials at the federal, state and local levels. This integration effort encompasses a variety of functions designed to enable the timely and efficient sharing of information within and between agencies.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

A Statewide Justice Information Sharing Study was developed on the state of justice information sharing among Missouri Law Enforcement, Prosecutors, Courts, and Missouri Department of Corrections' (MDOC) Division of Adult Institutions (DAI), and Probation & Parole (P&P). The study discovered Missouri's current problem, lack of real-time information system interfaces between Missouri's criminal justice agencies, and provided a solution to implement the study's findings.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Continuity of Operations / Continuity of Government  
**Program is found in the following core budget(s):** Information Technology Services Division

Federal E&E of \$1,811,819

**1. What does this program do?**

Continuity of Operations/Continuity of Government (COOP / COG) focuses on sustaining an organization's business functionality during and after a disruption or event. IT COOP/COG planning is critical to all state agencies, as all are dependent upon IT systems for the delivery of critical services. IT COOP/COG planning involves prioritizing IT applications, planning for their recovery due to a disaster event, defining work-around procedures, notification of staff, defining chain-of-command authority, and practicing any defined IT recovery procedures to the extent possible with various simulation exercises.

In January 2005, OA/ITSD completed COOP/COG planning for all of the divisions within OA. Included in the project were templates and sample guidelines that all state agencies can use in developing their own specific COOP/COG plans. During the project, state staff attending a training program provided by the federal government in Washington, DC to assure that the OA/ITSD plan met federal government guidelines. Homeland Security grant funding paid the total cost of \$82,000.00 for the project.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

The Missouri Department of Homeland Security and The Securities Council have identified as a major area of concern.

**3. Are there federal matching requirements? If yes, please explain.**

Certain federal grants require a percentage of matching fund.

**7a. Provide an effectiveness measure.**

The following areas of COOP/COG have been or are in the process of being developed or addressed:

- Raise the awareness of and recognition of the need for business continuity plans and disaster recovery plans.
- Clearly delineate the difference between state government operation plans and state agency business continuity plans and the corresponding responsibilities.
- Develop a methodology for agencies to utilize in the development of business continuity plans.
- Identify those information technology infrastructure assets that should be included in Missouri's Critical Asset Protection Plan and ensure that those assets are covered by an adequate disaster recovery plan.
- Recommend policies and procedures for the development, maintenance and annual exercising of business continuity and disaster recovery plans.
- Develop a business plan that clearly articulates the issues surrounding economic impact of having and maintaining business continuity and disaster recovery.

**7b. Provide an efficiency measure.**

Working to ensure in the event of a disaster, state technology services and business operations are recoverable within 120 hours.

**7c. Provide the number of clients/individuals served, if applicable.**

<b>Program Name</b>	Cyber Security
<b>Program is found in the following core budget(s):</b> Information Technology Services Division	
<p>Federal PS 2 FTE at \$119,064 and \$13,500 E&amp;E</p> <p><b>1. What does this program do?</b></p> <p>Secures cyber space by protecting the state's infrastructure, data, and business processes. Many cyber threats exist to the integrity of government's IT information, data, and infrastructures. Through Cyber Security, those assets are protected.</p> <p>ITSD has dedicated 3 FTE to focus on cyber security, disaster recovery and COOP/COG projects. In relation to cyber security, the ITSD Security team performs the following:</p> <ul style="list-style-type: none"> <li>- Assessment of current OA cyber security and addresses vulnerabilities identified.</li> <li>- Develops cyber security policies and procedures for OA.</li> <li>- Coordinates with state agencies on cyber security or best practices and shares OA's assessment information.</li> <li>- Notifies and coordinates with state agencies on virus and/or spam incidents.</li> <li>- Researches viruses and other cyber security incidents.</li> <li>- Researches security tools, best practices, software, and reviews state standards.</li> </ul> <p>During FY 05, the OA/ITSD Security team has several projects started and some projects that have been completed that address cyber security. OA/ITSD has purchased a complete computer forensics lab. This new equipment will be used to better identify malicious activity within the state's computer infrastructure from internal and external sources. State staff has completed training and several agencies participated and are qualified to use the equipment. Homeland Security funds paid for the \$45,000.00 project. Other projects that are near completion are 1.) a redundant wireless network deployed west of the capitol complex to allow for communications should the wired network fail; 2.) a statewide electronic mail anti-SPAM and virus protection project preventing malicious mail from being delivered to state employees; 3.) a content filtering project that will prevent access to websites that are known to contain malicious software; 4.) a business impact analysis of the State Data Center to determine the quantitative and qualitative impacts to the state in a loss of operations; 5.) a statewide security assessment of 33 state agencies establishing the current state of cyber security and the migration path to improve the state of cyber security; 6.) a cyber intrusion prevention system that will protect the state cyber infrastructure. This "smart" system can determine malicious activity and block it from attacking other systems connected to the statewide infrastructure. Funding for these projects is provided by SEMA through a Homeland Security grant.</p> <p><b>2. What is the authorization for this program, i.e., federal or state statute, etc.? **Program is found in the following core budget(s):** Information Technology Services Division

Federal 3 FTE at \$159,072 and EE of \$2,048,894

**1. What does this program do?**

Computerized maps showing the location of highways, parks, utilities, natural resources, and distribution of specific populations are among the many uses of Geographic Information Systems. To maximize benefits, it is important that all geographic information use identical standards that will allow one subject matter to be overlaid with another. It is also important that the information be made available to interested parties as a state asset to be shared. As an ongoing effort, the objective is to set standards, build on the geographic information base, make the information available and advertise its existence.

## 2. CORE DESCRIPTION

Governor Blunt ordered in FY06 that management of State Information Technology resources be consolidated under the Office of Administration. In FY06, some IT assets were identified and separate IT appropriations created within each department with the exception of Revenue, MoDOT, Conservation, Highway Patrol, Judiciary, Elected Officials, General Assembly, and various boards and commissions. The IT FY06 consolidation appropriation in each department primarily consisted of Computer Equipment (subclass 480) and some of the departmental IT organization appropriation data.

In FY07, the scope of the IT consolidation is being expanded to include the Department of Revenue and to include more of IT expenditures. IT appropriations from FY06, as well as additional IT expenditures are being moved to OA/ITSD in FY07. This CORE decision item contains the IT amounts being transferred from other departments, including the following:

- Agriculture
- Corrections
- Economic Development
- Elementary & Secondary Education
- Health & Senior Services
- Higher Education
- Insurance

## CORE DECISION ITEM

<b>Department</b>	Office of Administration	<b>Budget Unit</b>	30615
<b>Division</b>	Information Technology Services Division (ITSD)		
<b>Core -</b>	IT Inter-Department Consolidated Core		

**2. CORE DESCRIPTION, cont.**

- Labor and Industrial Relations
- Revenue
- Social Services

Many States are consolidating their IT resources in order to maximize investments of IT resources.

The objective of IT consolidation are many, but all relate to savings, cost avoidance, and cost containment. IT resources will be under the direct control of the State's Chief Information Officer (CIO), who will assess the IT staffing and equipment requirements for each department.

The consolidation of the IT funding in this decision item should result in a more coordinated use of IT resources.

The amounts to transfer were calculated as follows:

- FY 06 IT consolidation appropriations, or agreed upon revised amounts.
- IT support and other items not included in the FY 06 consolidation, including travel and professional development for IT staff, and items not previously identified such as state data center costs, IT maintenance, and other IT expenses remaining in agency core budgets.
- Department of Revenue, which was not consolidated in FY 06.

The identification of the additional IT transfers was based upon FY 05 actual expenses, with input from agency IT directors and fiscal staff.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Program Expansion - CIMOR has been intended to be a total consumer, provider, services, and funding system with additional functionality to support clinical operations. The full release of CIMOR has limited clinical functionality. There is a need to continue to enhance CIMOR to support such functions as clinical scheduling, treatment planning, assessments, physician order entry, etc. The first functional areas (about 20%) of CIMOR are in production and full production is scheduled for the end of FY06. Development and deployment have been difficult because of contract, technical, and business challenges, as well as funding shortfalls. Ongoing maintenance and adding clinical functionality to CIMOR will require funding levels closer to those initially planned. This request will allow us to gradually add some of this functionality.

Cost to Continue - Original CIMOR plans called for a total DMH IT E&E budget of \$12.2M per year from FY04 on. The lack of additional appropriations and budget cuts have reduced actual E&E funding to about \$6.6M. There will be ongoing costs beyond our current resource level, to maintain and replace hardware and software licensing.

Equipment Replacement - DMH IT has not had funding to provide for timely replacement of servers and PCs needed to support CIMOR and all other DMH IT operations.

The elevator safety program is responsible for enforcing nationally recognized safety standards for the maintenance, inspection, testing and operation of all elevator equipment. New elevator equipment installations, as well as modifications/alterations to existing equipment, are required to comply with a plan review process based upon nationally recognized standards through the Division and a permit issued before such work begins. This program also has regulatory authority over the issuance of state licenses to qualified elevator inspectors performing inspections within the State. Periodic quality control reviews are conducted by Division staff to ensure licensed inspectors are performing thorough and adequate inspections per state law and regulations. The program is charged with enforcing safety rules and regulations, the collection of prescribed fees, the registration and permitting of all elevator equipment and the processing and issuance of variance requests to elevator equipment. Division staff also conduct required annual training for state licensed elevator inspectors. This program is overseen by the Governor-appointed Elevator Safety Board. Fees collected are deposited into the Elevator Safety Fund (0257) to support the functions of the program and are swept biennially to GR.

**3. WHY IS THIS FUNDING NEEDED, cont?**

In order to administer the Elevator Safety Program as intended by law, as well as address several issues mentioned in the November 2002 Audit Report, the Division of Fire Safety is requesting funding to implement a computer system for the Unit. This system will allow the Unit to take advantage of the vast capabilities of web-based processing. This will allow Field Inspectors and state-licensed Inspectors to enter data directly into the system.

Because the data will be entered by many individuals (appx. 60) instead of just one, the accounting process will be performed in a more timely manner. Currently, it is a 60-day turn around from the time of the inspection, to when the inspection report is received in our office, reviewed, entered into the system, and the facility finally billed. With the use of a web-based system, staff will be able to invoice within 15 days of the inspection, thereby generating an additional \$40,000 annually to the fund.

Perhaps more important than increased revenues and cost savings, however, will be the improved management of units in the territories assigned to inspectors. The individual inspector will have immediate access to information concerning facilities operating units with deficiencies, be able to actively search for unregistered elevators within their territories, review the quality of inspections performed by state-licensed inspectors, and ensure more timely inspections are conducted. Each of these initiatives ultimately effects the safety of our public and improves the efficiency of the program.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Division of Fire Safety views this request as a proactive movement. In order to achieve such strides within the Unit without the use of an enhanced system, the Division would need to hire a minimum of two additional FTE to provide similar services. As mentioned throughout this request, the new system will provide for an effectively managed unit, increase revenues brought into the fund, and provide for a safer environment for the citizens of Missouri.

## 2. CORE DESCRIPTION

This decision item is the FY06 Telecommunications core request for Office of Administration, Division of Information Services. Estimated Revolving Fund Expense and Equipment is \$34 million (E). This core request pays the State's telecommunications bills and no FTE's are included in this core request. An estimated (E) amount is needed since agency utilization of the telecommunications network will vary.

Detailed costs are provided in the annual Telecommunication Cost Allocation Plan. All costs are Revolving Administrative Trust Fund (RATF).

The FY06 Cost Allocation Plan is estimated to be \$30,083,266. The cost estimates are based upon historical actual costs and projected utilization of the State network. The expenses incurred are primarily for Budget Class 760 – Rebillable Expenses, which are paid to various telecommunication vendors who provide services for the network. These expenses are then reimbursed by agency billings through the RATF.

The Telecommunications Core Request enables the Division of Information Services to pay for Telecommunications services incurred by state agencies. Through this core request, the Division will continue to provide quality telephone and data network services to state agencies. By being able to acquire service from vendors at a quantity discounted rate, the division is able to provide excellent services at a reduced rate to state agencies. The monies requested through this core decision are used to pay the State's telephone bills. Agencies are then billed for their usage and the Revolving Administrative Trust fund is reimbursed.

Telecommunication services provided through this decision item are critical to the day-to-day operations of all state agencies. Not funding this decision item would not allow the State to pay its phone and data line bills. State phone line rates (Centrex Line and Plexar Access Line Rates) provided through this funding are lower than what an individual business line would cost an agency if an agency procured phone service on its own. The actual cost to any agency would vary by location

## PROGRAM DESCRIPTION

**Department** Office of Administration

**Program Name** Telecommunications Services

**PROGRAM IS FOUND IN THE FOLLOWING CORE BUDGETS:** Information Technology Services Division Telecommunications

**1. What does this program do? Provide Telecommunication Services to State Agencies**

Telecommunications services are provided to all state agencies, and some of the colleges and universities. Services include local phone service, long distance, data circuits, voice mail, dial-up Internet service, toll free (800) lines, and other telecommunication services. Services are acquired from Telecommunication vendors through competitive bidding at quantity discounted rates. By centralization of this bidding process, the State is able to acquire services at reduced rates that would not otherwise be available to individual state agencies. Agencies are then billed by the Information Technology Services Division at rates developed annually through a Cost Allocation Plan. Agency payments are collected into the OA Revolving Administrative Trust Fund. Payments for the vendor provided services are then paid from the same fund in a consolidated manner for all state agencies.

The program exists to provide quality telephone and data network services at reduced rates. Rates are lower than what agencies could obtain individually.

The FY06 Telecommunications Cost Allocation Plan has 30.5 FTE's budgeted with a total operating budget of \$30,083,266.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Authority for operating the Telecommunications section, and the related Revolving Fund billing and administration is in Chapter 37 of the State statutes.

**3. Are there federal matching requirements? If yes, please explain.**

No.

**4. Is this a federally mandated program? If yes, please explain.**

No.

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

The prior year amounts include Fringe Benefit and Other Transfers from the Revolving Fund. The FY 2006 Planned Expenditures is the FY06 Cost Allocation Plan expenditure amount including transfers for Fringes and Other Transfers. The actual expense will depend upon the rate of agency utilization in FY06. Historically, expenditures have been less than projected in prior years.

## 6. What are the sources of the "Other " funds?

OA Revolving Administrative Trust Fund. The operations of the Telecommunications program are appropriated from this fund.

## 7a. Provide an effectiveness measure.

Various Telecom billing rates are used to gauge the **cost effectiveness** of the program. A goal of having billing rates to agencies equal to or lower than the year is targeted annually. Variances to this goal may be the result of unusual fluctuation in usage or the pricing in a category in a given year. The FY 2004 and FY 2005 pricing was hampered due to the SB 675 fund sweep whereby money from the Revolving Fund were transferred to General Revenue. Over 1.1 M was transferred to General Revenue in FY04 due to HB 675 impacting the rate structure especially for FY04 and FY05. Since Telecommunications bills agencies for its services, the rate structure is a tangible measure of cost effectiveness, and efforts are made continually to reduce the cost per unit cost.

Cost Category	FY02 Rate	FY04 Rate	FY05 Rates	FY06 Rate	% Change Since FY02
Centrex or ABC Access (Local Phone Service in JC)	\$17.33	\$18.36	\$18.36	\$16.88	-3%
Long Distance Rate	\$0.0651	\$0.5690	\$0.0569	\$0.0569	-13%
Plexar Access (Local Business Line in St. Louis or KC)	\$13.68	\$11.62	\$12.19	\$12.22	-11%
Data Line (IVDN)	\$147.84	\$145.24	\$145.24	\$145.24	-2%

The FY06 Telecommunications CAP is expected to reduce billings to agencies by over \$800,000 compared to the FY05 CAP.

**Projected rates for FY07 and FY08 would be equal to FY06. That is a challenging goal since costs from providers are leveling and starting to increase again.** The billing rates to agencies help validate and measure the cost effectiveness of the Telecommunications program. The State saves significant dollars by leveraging statewide volumes and centralizing the procurement and administration of these services.

## 7b. Provide an efficiency measure.

A survey was done in July, 2004, which compared the State telecommunications billing rate to what the normal rate for a business might be. These are the types of rates agencies of the State might pay if they attempted to contract individually with Telecommunication vendors.

### Comparison of Rates Billed to Agencies in FY06 to what agencies would have to pay at Regular Business Rates.

Type of Services	State Rate	Regular Business
Local Business Line in J.C.	\$16.88	\$23.29
Local Business Line in K.C.	\$12.22	\$37.66
Local Business Line in St. Louis	\$12.22	\$41.75
Local Business Line in Springfield	\$12.22	\$33.59

The State's billing rates include features such as Call Forwarding, 3 party calls, transfer of calls.

The Regular Business rate does not include these features, which would be a significant addition

### **Other Efficiency Notes (measures) regarding the Telecommunications Program that are difficult to Quantify**

#### **A. Savings to Agencies Paying 1 Consolidated Telecommunications Invoice**

Agencies receive 1 consolidated invoice and do not have to pay but 1 monthly amount to ITSD as opposed to an invoice for each type of service to multiple vendors. Statewide, that is a considerable savings in invoice processing for state agencies since several vendors provide services to state agencies and there are over 1,600 state entities that receive billings from ITSD each month.

#### **B. Agency Line Review (Audit)**

ITSD also initiated an Agency Line Review program in FY04. ITSD assisted agencies reviewing their monthly billings to identify telephone lines no longer being used due to agency budget cuts or retirements. Several department have seen substantial monthly savings from this review.

#### **C. State Operator Services**

The State Operator services are funded through this program. State Operators process hundreds of information calls from the public and state employees every day providing a "live" answering service to many citizens needing help in order to find answers to their questions. The operators also establish conference calls for state agencies and legislators saving travel expense and employee time.

#### **7c. Provide the number of clients/individuals served, if applicable.**

All State agencies are served by the Telecommunications program. On a regular monthly basis, nearly 1,600 monthly Telecom billings are distributed to State entities. The 1,600 monthly billings incorporate about 46,000 lines being billed each month. Most State employees have telephone lines or use data circuits serviced by this program.

#### **7d. Provide a customer satisfaction measure, if available.**

The SETAC (State Executive Telecommunication Advisory Committee) committee works with OA/ITSD on Telecommunication policies, the review of the Cost Allocation Plan and bids for services. The COMCOR committee, comprised of agency communication coordinators, provides input on services provided, vendor issues and for communication of Telecommunication procedures and policies.

## 2. CORE DESCRIPTION

The Division of Personnel assists all branches of state government by providing an effective and efficient statewide human resource management function and guidance in several areas:

- The Employee Services Section is responsible for reviewing job applications for employment with the Missouri Merit System and the assignment of employees in appropriate job classes and administration of position classification for agencies covered by the Uniform Classification and Pay (UCP) System.
- The Planning and Development Section is responsible for the development and delivery of statewide supervisory training and management programs and provides administration of statewide employee recognition programs.
- The Labor Relations Section coordinates labor relations activities in individual state agencies including participation in negotiations with employee-elected unions and approval of agreements relating to uniform wages, benefits and those aspects of employment that have a fiscal impact on the State.
- The Pay, Leave and Reporting Section provides information on the UCP System pay plan; interprets policies on pay, leave and hours of work; and provides assistance with the SAM II HR/Payroll System. This section also maintains the lists of people from whom agencies can select for Merit System jobs and ensures agency personnel transactions are in compliance with Chapter 36, RSMo.
- Along with the Division of Personnel, the Personnel Advisory Board is responsible for the operation of the Missouri Merit System, the Uniform Classification and Pay (UCP) System and other HR management functions established by the State Personnel Law (Chapter 36 RSMo). The Director of the Division of Personnel and other division employees act as staff to the Board in its oversight and policy making responsibilities. In addition, the Board has its own staff of two full-time employees and two part-time employees who work directly for the Board and are not Division employees. Their responsibilities are primarily in the area of appeals of disciplinary actions (dismissals, demotions, and suspensions) which are heard by the Board.

## PROGRAM DESCRIPTION

<b>Department</b>	Office of Administration
<b>Program Name</b>	Employee Services - Selections and Position Classification
<b>Program is found in the following core budget(s):</b>	Personnel Operating

### 1. What does this program do?

The Employee Services Section is responsible for reviewing job applications for employment with the State of Missouri Merit System. Since the Merit System started, all applications were done on paper with a professional personnel analyst reviewing, evaluating and scoring each application. On May 2, 2005 the on-line application system (EASe) started and by June 30, 2006, all Merit applications will be processed and scored electronically. This process will take minutes rather than weeks. Employee Services also ensures that state employees are assigned to appropriate job classes. Additionally, the section develops and administers position classifications for agencies covered by the Uniform Classification and Pay (UCP) System. Services provided include: serving as a neutral or objective party in the resolution of classification issues involving employees and agency officials; managing the overall recruitment and enrollment for merit system job classes; reviewing and developing the classifications for all UCP positions; comparing assigned duties to official class specifications and allocation guidelines; examining internal and external benchmarks for job comparison purposes.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State: RSMo 36.100, 36.110, 36.120, 36.130, and 36.150

<b>Program is found in the following core budget(s):</b>	Personnel Operating

### 1. What does this program do?

The Planning and Development (P&D) section develops and delivers management and supervisory training programs to Missouri state leaders. P&D also administers statewide employee recognition programs such as the Governor's Award for Quality and Productivity, State Employee Recognition Day, Public Service Employee Recognition Week and Missouri Relies On Everyone, which is the state's employee suggestion system. P&D also directs or provides services in other areas such as: assists departments in implementing a standard system of performance management; provides assistance and consultation to agencies on process improvement; schedules and administers written and skills assessment statewide, including daily testing in the Division of Personnel; develops and revises written examinations, education and experience rating guidelines and procedures for all classifications; and provides consultative services to agencies and employees on human resource management in state government.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State: RSMo 36.510 and 36.160, 36.170, 36.180, 36.190

## PROGRAM DESCRIPTION

<b>Department</b>	Office of Administration
<b>Program Name</b>	Planning and Development
<b>Program is found in the following core budget(s):</b>	Personnel Operating

**7a. Provide an effectiveness measure.**

The employee suggestion system prior to FY03 did not yield the effectiveness outcomes initially projected - specifically, how much was saved by each suggestion. The P&D section updated the process of applying, selecting and rewarding state employees for their suggestions that would improve efficiency, reduce cost and improve overall customer service in state government. The goal of the effectiveness measure is to increase the number of suggestions submitted by state employers by 5% each year.

**7b. Provide an efficiency measure.**

One efficiency measure is the cost to attend professional development sessions outside of those offered by the Division of Personnel. An average professional development session is plus/minus \$150 compared to \$75 - 95 to attend a comparable training with the Div. of Personnel. The goal of the efficiency measure is to continuously monitor leadership development trends & needs to deliver effective and efficient training at below market cost.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Planning and Development  
**Program is found in the following core budget(s):** Personnel Operating

**7c. Provide the number of clients/individuals served, if applicable.**

The goal of this measure is to increase the number of managers and supervisors attending Planning & Development training sessions.

**7d. Provide a customer satisfaction measure, if available.**

The Planning & Development (P&D) Section administers a voluntary training evaluation to continuously measure several factors, including reason for attending, clarity of course objectives, overall evaluation of training content, materials, videos, room temperature, participant's willingness to recommend the training he or she just attended and his or her overall level of satisfaction with the training session he or she just completed. During FY05, 2,193 managers and supervisors attended P&D training sessions; of which 88% (1642) completed the satisfaction survey. The satisfaction measure is an analysis of attendee's responses to the following statement: "Overall, I was satisfied with the training experience". Participants have three options when responding: "Agree", "Not Sure" and "Disagree". An analysis of the FY05 responses suggests that 97% (1593) participants agreed with the statement; while, 2.20% (37) participants were not sure and .70% (12) disagreed.

The customer service measure is to increase the rate of satisfied customers.

## PROGRAM DESCRIPTION

**Department** Office of Administration

**Program Name** Labor Relations

**Program is found in the following core budget(s):** Personnel Operating

### 1. What does this program do?

The Labor Relations Section is responsible for developing and executing statewide labor relation's policies, objectives and strategies in a manner that is consistent with the Revised Statutes of Missouri and the Missouri Constitution. The primary activity of the Section includes serving as the Chief Negotiator on all negotiations between the State's Executive Branch agencies and their employee elected certified bargaining representatives. Other activities include providing consultation and advice to State agencies regarding employee grievances, discipline and day-to-day administration of existing meet-and-confer agreements.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The primary authorization for the Labor Relations function within the Division of Personnel is RSMo 36.510.1(6). Other relevant statutory requirements include RSMo 105.500 – 105.530, which defines Missouri public employees' rights to unionize and the public body's obligation to meet, confer and discuss the certified bargaining representative's proposals pertaining to salaries and other conditions of employment. The policies and practices of the Labor Relations process in Missouri State Government has experienced a dramatic shift during FY05. Beginning in 1994, Missouri's Labor Relations policies had become increasingly more akin to the collective bargaining environments of many other states. Executive Order 05-01 was issued in January, 2005. This Order rescinded Executive Order 01-09 and the labor agreements that were negotiated under its authority. The Labor Relations Section has experienced a smooth transition during this dramatic shift by entering into the meet and confer process with three unions to renegotiate the five rescinded agreements, communicating the appropriate policy changes to affected state agencies and reducing the resources of the Section from 3 FTE to 1 by shifting these resources to others critical functions of the Division.

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

**7a. Provide an effectiveness measure.**

The FY06 goal for the Labor Relations Section is to reach agreement and implement new labor agreements for the five bargaining units that had agreements negotiated under Executive Order 01-09 and to continue/complete negotiations for each replacement agreement due in subsequent years.

\* The agreements negotiated in Fiscal Years 2004 and 2005 have been rescinded and are being renegotiated during FY06.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Labor Relations  
**Program is found in the following core budget(s):** Personnel Operating

**7b. Provide an efficiency measure.**

During recent years the State committed a high volume of resources to the negotiation process. To improve the efficiency of this process the Labor Relations Section is tracking the hours of work (the total number of management and union employees times the total hours at the negotiating table) committed to the meet and confer process. The goal is to significantly reduce the total hours (beginning with 150 hours per negotiated agreement in FY06) by 5% each year through capping the amount of administrative leave approved for bargaining unit employees, reducing the number of managers and employees who participate in negotiations as well as an appropriate level of standardization of the terms of the agreements.

\* This is a new measure for FY06 and the total number of employees and hours spent in negotiations were not tracked in the past, however it is estimated that most of the negotiations involved between 2000 and 8000 total labor hours, depending on the size and structure of the bargaining unit involved.

## PROGRAM DESCRIPTION

<b>Department</b>	Office of Administration
<b>Program Name</b>	Division of Personnel, Pay Leave & Reporting Section
<b>Program is found in the following core budget(s):</b>	Personnel Operating

### 1. What does this program do?

Staff maintain registers of qualified applicants and certifies names of applicants to merit system agencies, the selection of which must be from the top 15 or 15% of those available for a specific vacancy. Certificates returned to the Division of Personnel designating an appointment are audited for accuracy and matched with the ensuing appointment in the payroll system to ensure the appointment is in compliance with the regulations. Staff audit and approve personnel transactions submitted by Uniform Classification and Pay System agencies through the SAM II HR/Payroll system. The timely approval of transactions is very important as the pay of employees frequently is affected. The staff of the Pay, Leave and Reporting Section administer the regulations governing pay, leave, hours of work, overtime, certification, removal from registers, transfers, political activity, conflicting employment and layoff. Staff maintain the Uniform Classification and Pay System pay plan which includes drafting recommendations from the Director of Personnel to the Personnel Advisory Board for the upcoming budget cycle and associated fiscal year. The staff of the Pay, Leave and Reporting Section maintain all of the HR-related tables in the SAM II HR/Payroll system, and the MAIRS applicant tracking system and the EASe on-line application system.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Numerous citations under Chapter 36, the State Personnel Law, are applicable to the Pay, Leave and Reporting Section. Three of six chapters of the regulations of the Office of Administration, Division of Personnel, are applicable to the Pay, Leave and Reporting Section.

### 3. Are there federal matching requirements? If yes, please explain.

The Pay, Leave and Reporting Section administers regulations governing federal overtime (FLSA), the Family and Medical Leave Act (FMLA) and Military Leave.

### 4. Is this a federally mandated program? If yes, please explain.

Federal overtime, minimum wage, FMLA and military leave requirements are mandated.

### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

The transaction audit unit approves all transactions submitted by UCP agencies for each paycycle, or else employees may not be paid correctly.

**7d. Provide a customer satisfaction measure, if available.**

The certification unit serves the nine merit agencies and all applicants maintained on registers for merit system positions. The transaction audit unit serves 13 Uniform Classification and Pay System agencies. The Division does not currently keep track of satisfaction with the registers; however, we could survey the affected agencies for this information.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Personnel Advisory Board  
**Program is found in the following core budget(s):** Personnel Operating

**1. What does this program do?**

The State Personnel Law (Chapter 36, RSMo) provides for a Personnel Advisory Board of seven members, six of whom are appointed by the governor with the advice and consent of the Senate. Four members are appointed from the public at large, one is a member of executive management in state government and one is a non-management state employee. The seventh member is the person designated as the state equal opportunity officer. The board has oversight responsibility for the Missouri Merit System and the Uniform Classification and Pay System and has broad policy making authority in various areas of human resources administration. In addition, Section 36.380, RSMo authorizes an Appointing Authority to dismiss, demote or suspend a state employee for more than five working days for cause. State employees who have been so disciplined are entitled to procedural due process regarding the discipline taken. This due process includes among other things an evidentiary contested case hearing before the Board or one of the Board's hearing officers (one-full time and two part-time hearings officers).

## **2. CORE DESCRIPTION**

Missouri Relies on Everyone (MoRE), is the state's employee suggestion system. MoRE is a vehicle for state employees to submit their ideas, suggestions or recommendations for improving a service, generating revenue/reducing cost or improving a process in Missouri state government. The benefits of the program are twofold. First, it ensures employees that state administrators and executives will hear their voices, ideas and suggestions on how to increase efficiency, reduce cost or improve processes. Secondly, MoRE recognizes the ideas of state employees as valuable and when appropriate, gives agencies an opportunity to identify improvement measures that absent the employee's idea(s), it would not realize. Once the employee submits his or her suggestion, a review team determines if the idea should receive a certificate of recognition, a \$75.00, \$150.00 or \$300.00 award. The review team bases their decision on the agency's willingness or ability to implement the suggestion, the feasibility of the idea, and newness of the idea, whether it is an idea that is currently in the planning stage in the agency and based on the agencies willingness to pay the suggested amount of the award recommended by the team.

The Division of Personnel no longer uses this appropriation because each Department, who agrees to pay beforehand, can use SAMII HR for this purpose. This item is simply a placeholder to report on MoRE.

\* In FY05, the review team recommended eight (8) awards to state employees who submitted suggestions to MoRE as follows: 3 suggestions for reducing costs; 4 suggestions for improving customer service; and 1 suggestion for improving a process in state government. The total cost to the state for these awards was \$675, paid by the agency or agencies that would ultimately benefit from the suggestion. Additionally, the agency agrees to pay each of the suggestions individually and prior to implementation.

## PROGRAM DESCRIPTION

**Department** Office of Administration  
**Program Name** Missouri Relies on Everyone (MoRE) Employee Suggestion System  
**Program is found in the following core budget(s):** Employee Suggestion Award

### 1. What does this program do?

This program is the state's employee suggestion system, which serves as a medium for employees to share their ideas, suggestions or recommendations for improving service, generating revenue/reducing cost or improving a process in Missouri state government without the "censoring" of an immediate supervisor or other person without the consent of a senior administrator.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State: RSMo 36.030.4

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

No

### 5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

\*Awards are processed through the awardee's agency

### 6. What are the sources of the "Other " funds?

The sole source of "other" funds is the agency that benefits from the suggestion.

## PROGRAM DESCRIPTION

<b>Department</b>	Office of Administration
<b>Program Name</b>	Missouri Relies on Everyone (MoRE) Employee Suggestion System
<b>Program is found in the following core budget(s):</b>	Employee Suggestion Award

**7a. Provide an effectiveness measure.**

Prior to FY03, the employee suggestion program was based on a system which relied on the percent of overall savings as recognition for the suggestion. Through the percentage system, one or two employees would make a suggestion and earn several hundred or even thousands of dollars. The problem was that because the suggester had to wait for more than a year sometimes for a response (first the agency had to implement or test the suggestion), very few employees submitted their ideas. Responding to the idea that employees have a great sense of how to improve services, efficiencies and reduce cost, the Division of Personnel revised the program in FY04 reviewing suggestions every 3 months and rewarding the employee for the suggestion; not the implementation of his or her suggestion. Thus, the effectiveness measure herein presented is based on the idea for the program to be successful, employees must submit their ideas. Similarly, for employees to submit their ideas, there must be an incentive to share their ideas. Thus, in addition to the established \$75.00 award, 95% of employees who submit their ideas receive a certificate of recognition or appreciation from the Commissioner of the Office of Administration. This effectiveness measure is based on the number of employees who submit their ideas to MoRE.

**Department** Office of Administration  
**Program Name** Missouri Relies on Everyone (MoRE) Employee Suggestion System  
**Program is found in the following core budget(s):** Employee Suggestion Award

**7b. Provide an efficiency measure.**

Ideally, the efficiency of this program is directly related to the number of awards made that are supported by the affected agency. Prior to making a monetary award the agency must complete a feedback form indicating their ability and willingness to implement the suggestion.

**7c. Provide the number of clients/individuals served, if applicable.**

This program has the potential of serving multiple constituents, including all state employees, agencies and citizens.

**7d. Provide a customer satisfaction measure, if available.**

## **2. CORE DESCRIPTION**

This core request is for funding to promptly refund the bidder's bid or performance security that was deposited into State Treasury during the procurement process. Checks are received from vendors as bid or performance security and deposited into the State Treasury. Interest earned on these deposits goes directly into General Revenue. After the bids are awarded or the contractor has performed, these deposits must be promptly refunded to the bidder or contractor. These are refundable deposits and not payments to the state.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The expense and equipment core increase request is for funding to cover operating costs of the State's recycling program such as promotional/information materials and providing desk side/other containers to collect materials. The new transfer appropriation is needed to facilitate the transfer of excess funds from the recycling program to the Department of Social Services to be used by the heating assistance program. Proceeds from the sale of recycled materials may be used to offset costs of the recycling program. Any moneys in excess of costs incurred shall be transferred to the department of social services to be used by the heating assistance program pursuant to sections 660.100 to 660.135, RSMo. Transfers have been made regularly to the heating assistance program, but this transfer request is to establish a specific appropriation for excess recycling funds.

## PROGRAM DESCRIPTION

**Department:** Office of Administration

**Program Name:** Purchasing & Materials Mgmt.

**Program is found in the following core budget(s):** Surplus Property Proceeds/Transfer

**1. What does this program do?**

Chapter 34 RSMo authorizes OA to transfer state surplus property between state agencies, distribute state surplus property to eligible entities, and to sell state surplus property, which is not transferred or distributed, to the general public by auction or sealed bid. Per 37.090 RSMo, a fund was established to pay the costs of conducting state surplus property sales and to distribute the monies received in excess of costs to the fund which purchased the item that was sold. Expenses for state surplus property operations include auctioneer fees, advertising and travel expenses. In addition, reimbursement is made for use of office space and equipment.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapters 34 & 37 RSMo

**3. Are there federal matching requirements? If yes, please explain.**

No

**4. Is this a federally mandated program? If yes, please explain.**

No

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**6. What are the sources of the "Other" funds?**

Proceeds of Surplus Property Sales Fund (0710)

## 2. CORE DESCRIPTION

This item was transferred to HB-13 for the operating costs of real estate services of the Division of Facilities Management, Design and Construction for FY 2007.

The cost of real estate services operations will be charged from HB 13 (Statewide Leasing) to General Revenue and Other funds. The same funds that support the activity of state employees are charged for the cost of asset management provided by DFMD. In this way, the amount of general revenue can be reduced and more appropriate funds can carry their share of the cost.

A reduction to general revenue (GR) was possible, because GR will no longer up-front the entire operating expenses. Other funds will be charged directly throughout the year for their portion of the operating costs.

**2. CORE DESCRIPTION**

This appropriation provides authority to spend donated funds in support of maintenance, renovations, and operations at the Executive Mansion and grounds.

Additionally, the Mansion Donations Fund is a revolving fund that can be used for voluntary contributions and donations to the Board of Public Buildings on behalf of the Governor's Mansion, and will be available to pay costs associated with public events at the Mansion. Contributions can be made by visitors to the Governor's Mansion, and monies can be expended for the public purpose of sponsoring cultural and educational events for the citizens of the State of Missouri. Such monies can also be expended for the purpose of allowing citizen groups to hold functions at the Mansion.

### 2. CORE DESCRIPTION

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying and reduction deferred maintenance, bringing to bear new technology to manage our assets and using full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio we will reduce operating cost. Well maintained facilities are cheaper to operate.

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public, these services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan and Energy Management.

# FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 31041C	<b>DEPARTMENT:</b> Office of Administration
<b>BUDGET UNIT NAME:</b> DFMD C Asset Management	<b>DIVISION:</b> Facilities Management, Design and Construction

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.** If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

PS/EE flexibility would allow the new merged Division of Facilities Management, Design and Construction to refocus the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. Flexibility maximizes DFMD C's ability to adjust funding to match varying asset management needs and costs.

DEPARTMENT REQUEST					GOVERNOR RECOMMENDATION				
100% FLEXIBILITY									
Section	PS or E&E	Core	% Flex Requested	Flex Request Amount	Section	PS or E&E	Core	% Flex Gov Rec	Flex Gov Rec Amount

<i>Note: Does not include new DI of former D&amp;C GR, switched to 0501. If funded, the "reallocated" amount should be added to this core.</i>									

**2. Estimate how much flexibility will be used for the budget year.** How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$20,000	\$0.00	100% flexibility between PS and E&E.

**3. Was flexibility approved in the Prior Year Budget or the Current Year Budget?** If so, how was the flexibility used during those years?

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was used to cover the cost of real estate services consulting, "Lease vs Buy" analysis performed by Glaze Real Estate.	Flexibility may be used to redirect PS/E&E to efficiently conduct asset management needs and costs.

### 1. What does this program do?

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying and reducing deferred maintenance, bringing to bear new technology to manage our assets and using full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio we will reduce operating cost. Well maintained facilities are cheaper to operate.

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public, these services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan and Energy Management.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Missouri Revised Statutes, Chapter 8, Section 8.120, Division of Design and Construction Created - Duties

Missouri Revised Statutes, Chapter 8, Section 8.110, Division of Facilities Management Created - Duties

Missouri Revised Statutes, Chapter 34.030, Leasing

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

No

**7a. Provide an effectiveness measure.**

DFMDC manages a Facility Condition Assessment program to measure the condition of state facilities. The measure used to evaluate the condition of each facility is the Facility Condition Index (FCI). The FCI can be summarized for each facility, for each site, for each department, and for the entire state. This standardized methodology provides the foundation for making cost effective capital decisions. The goal of this division is to reduce the statewide FCI to 5% in ten years. The following chart is based on currently assessed OA facilities only.

Funding-Target FCI-Funding to reduce FCI to 5% in 10 years.

**7c. Provide the number of clients/individuals served, if applicable.**

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public.

The mission is to provide a superior workplace environment for state occupants and their visitors and protect the State's investments in property assets. The goal is to provide agencies with the information and resources that will support their development of high-performance workplaces--workplaces that will meet agencies' business needs and can be readily adapted to changing work practices and strategies.

**7d. Provide a customer satisfaction measure, if available.**

This chart summarizes the results of Building Operations' Customer Survey Grades for Conference Center, Building Managers Office, Maintenance and Housekeeping Services. Results are based on Grade Point Averages with 4.0 being the best.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This item is to request the core funding supporting design and construction staff responsible for delivering construction projects be changed from general revenue to the State Facility Maintenance and Operation Fund, and will consolidate the resources into the FM, D&C Asset Management Core. These costs will be billed to the applicable construction project, and could result in a savings to GR for those projects appropriated from federal and other funds.

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management.

**2. CORE DESCRIPTION**

This appropriation provides authority to spend cost savings realized as a result of the creation of "Energy Efficiency Implementation Act" in Senate Bill 122, 93rd General Assembly, First Regular Session. DFMD C may expend up to two and one-half percent (2.5%) of the cost savings to offset all reasonable costs associated with the implementation of the energy efficiency implementation act. Appropriation authority is required to allow for the expenditure of any funds that may be realized.

DFMD C is in the initial stages of implementing this act. No cost savings have been realized, yet. No data has been acquired to determine the costs associated with implementing the act. Due to lack of data, an estimated appropriation is requested to allow DFMD C to expend the funds necessary for implementation as the program develops.

## 2. CORE DESCRIPTION

This funding represents core budget requirements for operational maintenance and repair of DFMD C managed state owned facilities. For the past several years, DFMD C has received funding for small maintenance and repair projects at state owned facilities allowing projects to be completed in a timely manner. The funding is used to avoid unprogrammed or emergency maintenance and repair projects that would be significantly more costly to complete. It is also used to fund unanticipated tenant modifications due to program changes. This has increased the flexibility and responsiveness of DFMD C to tenant requests.

**1. What does this program do?**

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying and reducing deferred maintenance, bringing to bear new technology to manage our assets and using full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio we will reduce operating cost. Well maintained facilities are cheaper to operate.

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public, these services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan and Energy Management.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

**7a. Provide an effectiveness measure.**

DFMDC manages a Facility Condition Assessment program to measure the condition of state facilities. The measure used to evaluate the condition of each facility is the Facility Condition Index (FCI). The FCI can be summarized for each facility, for each site, for each department, and for the entire state. This standardized methodology provides the foundation for making cost effective capital decisions. The goal of this division is to reduce the statewide FCI to 5% in ten years. The following chart is based on currently assessed OA facilities only.

Funding-Target FCI-Funding to reduce FCI to 5% in 10 years.

**7c. Provide the number of clients/individuals served, if applicable.**

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public.

The mission is to provide a superior workplace environment for state occupants and their visitors and protect the State's investments in property assets. The goal is to provide agencies with the information and resources that will support their development of high-performance workplaces--workplaces that will meet agencies' business needs and can be readily adapted to changing work practices and strategies.

**7d. Provide a customer satisfaction measure, if available.**

This chart summarizes the results of Building Operations' Customer Survey Grades for Conference Center, Building Managers Office, Maintenance and Housekeeping Services. Results are based on Grade Point Averages with 4.0 being the best.

## 2. CORE DESCRIPTION

This item was transferred to HB-13 for the costs of state-owned office building operations for FY 2007.

The cost of state-owned office building operations will be charged from HB 13 (Statewide Leasing) to General Revenue and Other funds. The same funds that support the activity of state employees in state-owned office space are charged for the cost of asset management provided by DFMD. In this way, the amount of general revenue can be reduced and more appropriate funds can carry their share of the cost.

A reduction to general revenue (GR) was possible, because GR will no longer up-front the entire operating expenses. Other funds will be charged directly throughout the year for their portion of the operating costs.

## 2. CORE DESCRIPTION

This appropriation provides authority to spend gifts, bequests, grants, and donated funds in support of the work of the Second State Capitol Commission for the restoration and preservation of the Capitol Building, the promotion of the historical significance of the Capitol Building, and the improved accessibility of the Capitol Building. Established in SB470 (2001), the legislation also established the Second Capitol Commission Fund. Any moneys received by the Commission from sources other than appropriation, including from private sources, gifts, donations and grants, are to be credited to that fund and appropriated by the General Assembly. The Commission exercises general supervision and administration of the fund. Appropriation authority is required to allow for the expenditure of any funds that may be received.

An estimated appropriation is requested to ensure the ability to expend all funds should receipts exceed the stated authority amount.

## 2. CORE DESCRIPTION

The core funding for the transfer from federal and other funds that reimburse GR in support of state-owned building rent has been reallocated to the Leasing House Bill 13 core for FY 07. Federal and other funds will be charged monthly for their appropriate allocation of rent, to recover the costs of operating the building(s) in which the agency resides.

*Note: Fringes budgeted in House Bill 5 except for certain fringes budgeted directly to MoDOT, Highway Patrol, and Conservation.*

Other Funds: State Facility Maintenance and Operation Fund (0501)

Notes: An "E" is requested for the \$708,871 Other Funds.

**2. CORE DESCRIPTION**

This core represents revolving fund authority that allows the Division of Facilities Management, Design and Construction to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications and tenant services that support agency programs. DFMDc then bills agencies for such costs via the interagency billing process.

This pass through appropriation gives DFMDc the ability to effectively manage facilities, modification projects and other services by establishing a mechanism to make up-front purchases for materials without reducing appropriation authority for facility operating purposes. The Division also makes up-front payments for other extraordinary services agencies may require that would otherwise place an unreasonable burden on the regular operating budget of the facility.

**1. What does this program do?**

Since the merger of Facilities Management and Design and Construction by the Governor (Executive Order 05-08) we have refocused the mission of the organization from delivering construction projects, negotiating leases and managing buildings into a new vision of asset management. By focusing on identifying and reducing deferred maintenance, bringing to bear new technology to manage our assets and using full range of procurement tools to efficiently and effectively improve the condition of the state real estate portfolio we will reduce operating cost. Well maintained facilities are cheaper to operate.

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public, these services include: Real Estate Services, Portfolio Management, Facility Management, Project Management, Contract Management, Facility Condition Assessment, Space Management, Space Standards, Statewide Master Plan and Energy Management.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

**7a. Provide an effectiveness measure.**

DFMDC manages a Facility Condition Assessment program to measure the condition of state facilities. The measure used to evaluate the condition of each facility is the Facility Condition Index (FCI). The FCI can be summarized for each facility, for each site, for each department, and for the entire state. This standardized methodology provides the foundation for making cost effective capital decisions. The goal of this division is to reduce the statewide FCI to 5% in ten years. The following chart is based on currently assessed OA facilities only.

■ Funding-Target FCI-Funding to reduce FCI to 5% in 10 years.

**7c. Provide the number of clients/individuals served, if applicable.**

DFMDC provides professional services to assist state entities in meeting their facility needs for the benefit of the public.

The mission is to provide a superior workplace environment for state occupants and their visitors and protect the State's investments in property assets. The goal is to provide agencies with the information and resources that will support their development of high-performance workplaces--workplaces that will meet agencies' business needs and can be readily adapted to changing work practices and strategies.

**7d. Provide a customer satisfaction measure, if available.**

This chart summarizes the results of Building Operations' Customer Survey Grades for Conference Center, Building Managers Office, Maintenance and Housekeeping Services. Results are based on Grade Point Averages with 4.0 being the best.

## 2. CORE DESCRIPTION

Core funding to support the Division of General Services, a multi-faceted organization providing a number of essential support services to state agencies and to the Office of Administration.

**State Printing** offers comprehensive reproduction services including design, printing, finishing, and quick copy services. **Mail Services** advises agencies on efficient mailing practices, provides comprehensive mailing services to the Office of Administration and conducts interagency delivery of mail within the Jefferson City area. **Risk Management** administers the Legal Expense Fund and the workers' compensation program for state employees, purchases insurance when appropriate, and monitors policies and claims. This section also coordinates the Statewide Safety Steering Committee and advises state agencies on risk management issues. **Flight Operations** provide safe, efficient, and flexible air transport services to state government. **Vehicle Maintenance** operates a centralized maintenance facility to provide mechanical repairs and body shop services for state vehicles based in the Mid-Missouri area. **Fleet Management** establishes statewide policies governing state vehicle operations and management; coordinates a centralized fleet information system and serves as a resource for fleet management issues. The **Governor's Advisory Council on Physical Fitness and Health** promotes wellness and physical well being to all citizens of the state. General Services also provides administrative support and staffing to operate the **Missouri Public Entity Risk Management Fund** program.

## 2. CORE DESCRIPTION

Core appropriation to authorize payments from the Property Preservation Fund - a self-funded alternative to the purchase of property insurance for bonded state owned or leased facilities.

The State of Missouri is required under bond covenants to purchase property insurance for bonded state buildings to protect the bondholders should the assets backing the bonds, the covered buildings, be damaged or destroyed. Prior to the passage of legislation creating the Property Preservation Fund, over 92.5% of the value of all state property was uninsured. The remaining 7.5% was covered by property insurance. Property insurance had been escalating in costs over the previous few years. The Property Preservation Fund was created to provide coverage to named property for purposes of repairing or replacing state-owned or leased property damaged from natural or man-made events. Only if a loss to a covered building occurs would a payment be made. The Fund is estimated to save the state approximately \$1 million annually in insurance costs.

This appropriation will be used to repair or replace certain state-owned or leased property damaged from natural or man-made events. Due to the uncertainty of losses, actual expenditures from the fund may fluctuate significantly from year to year. In any given year there is the risk that a bonded building may be damaged and the state would be liable for the cost to repair or replace the damaged building. Over the past 18 years, there have been only two claims totaling \$281,000 for losses to covered bonded buildings. This translates to less than \$16,000 per year in average claims cost. This appropriation is requested on an estimated basis.

## 2. CORE DESCRIPTION

Appropriation authority to purchase required raw materials used in the production of final goods and services to state agencies. State Printing, Vehicle Maintenance, Flight Operations, Fleet Management and Mail Services primarily use this revolving fund appropriation to purchase inventory (e.g., paper, parts, fuel and postage) and obtain outside services to provide products/services to state agencies. This appropriation may be used to purchase goods or services that are rebilled to state agencies.

The amount of paper, vehicle parts, postage, fuel, services or supplies acquired is directly dependent on the level of demand by agencies. Funds appropriated for rebillable expenses may be used for the purchase of raw materials or goods placed in inventory for later conversion or sale and for services obtained that are necessary to produce the final goods or services. Equipment, maintenance and rebillable coded expenditures required to produce the final goods or services are paid from this appropriation.

This appropriation will also be used to replace property damaged beyond repair through the fault of a third party to the extent recovery is made from the third party or their insurer. This allows state agencies to replace state owned property that is destroyed through the fault of a third party. Under Section 37.452 RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this revolving fund appropriation.

### 1. What does this program do?

The council's purpose is to promote physical fitness and health by implementing programs, fostering communication and cooperation and developing statewide support for healthy living.

The council sponsors and supports the Show Me State Games and Senior State Games. The council operates the Show Me Body Walk Program which is a traveling interactive, educational experience for children demonstrating how they can improve the quality and length of their life through healthy lifestyles. The council also coordinates the Governor's Fitness Challenge (Shape Up Missouri Program) which is an eight-week program designed to encourage individuals and families to increase their level of physical activity, and lead to a longer-term commitment to exercise and practice good health habits.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Governor's Council on Physical Fitness and Health was established initially by Executive Order 86-6 in 1986, and again under Executive Order 02-12.

### 3. Are there federal matching requirements? If yes, please explain.

No

### 4. Is this a federally mandated program? If yes, please explain.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

SB 420 & 344 passed during the 93rd General Assembly requires that the Legal Expense Fund reimburse the St. Louis and Kansas City Police Boards on an equal share basis for up to \$1 million dollars each in liability claims paid by the respective boards during each fiscal year (Section 105.726.3 RSMo.). Expenditures from the Legal Expense Fund have exceeded the appropriated core for the past three years. This request will bring the Legal Expense Fund general revenue transfer appropriation to required levels.

This request matches the required reimbursement to the St. Louis and Kansas City Police Boards as provided under Section 105.726.3 RSMo. Information provided by the respective boards indicate that the maximum reimbursement should be expected each fiscal year. The general revenue transfer appropriation is requested to be increase by \$2 million.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

SB 420 & 344 passed during the 93rd General Assembly requires that the Legal Expense Fund reimburse the St. Louis and Kansas City Police Boards on an equal share basis for up to \$1 million dollars each in liability claims paid by the respective boards during each fiscal year (Section 105.726.3 RSMo.). Expenditures from the Legal Expense Fund have exceeded the appropriated core for the past three years. This request will bring the Legal Expense Fund appropriation to anticipated expenditure levels.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

This request matches the required reimbursement to the St. Louis and Kansas City Police Boards as provided under Section 105.726.3 RSMo. Information provided by the respective boards indicate that the maximum reimbursement should be expected each fiscal year.

**5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**
